

I live in rural Texas and listen to KLOVE on a local FM station. KLOVE recently came into our area and we consider them a blessing. Their message is so important. Keeping God in our hearts is very difficult in this day and age as we are being constantly battered by bad things. That's why we need KLOVE. Since KLOVE came to Gonzales, the youth ministry has grown. This type of music really speaks to the children when they won't listen to anyone else. I fear that the momentum would die if KLOVE was not available. Also, stations like KLOVE have pastors on hand for people to call when they are in need. The nights can become very lonely when you are lost and when you hear on the radio this positive message of God and then you hear them say that a pastor is there for you to call if you are in need.....It can be the difference between life and death. I pray that you will do your part to enable KLOVE and stations like it to reach us, God's children. - God Bless! <><
